

A healthy critical attitude: revisiting the results of a graph drawing study
Helen C. Purchase

Supplementary materials.

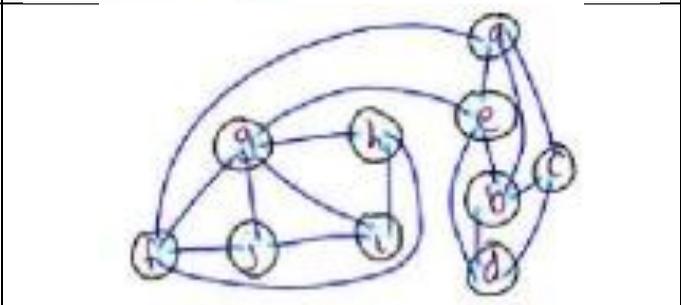

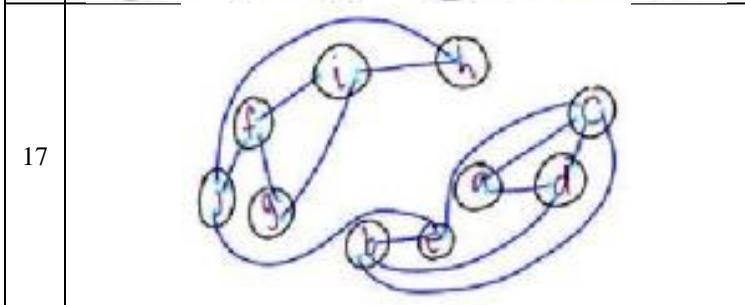

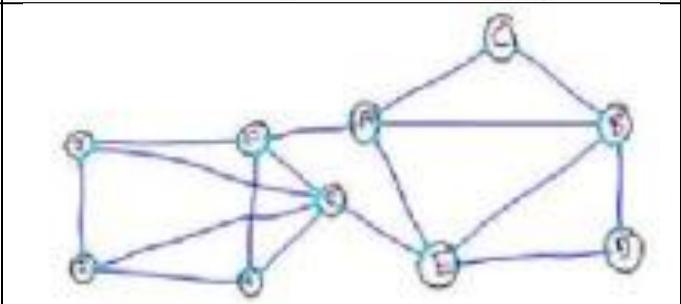

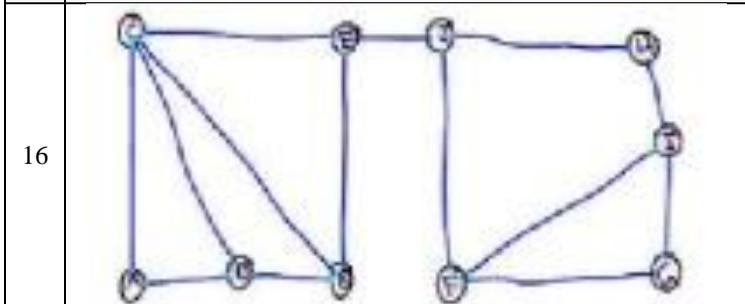

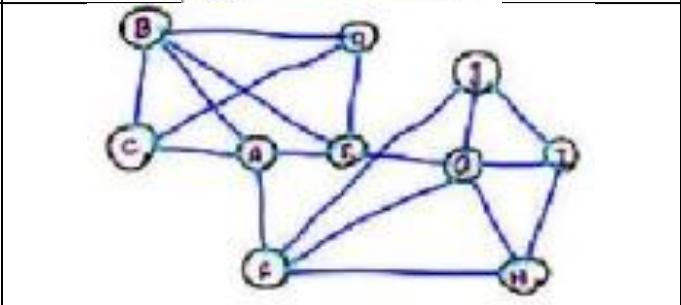

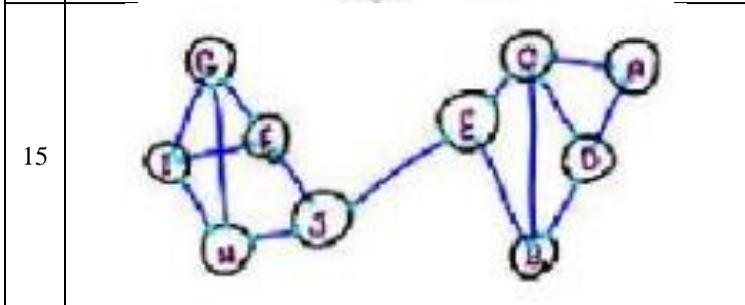

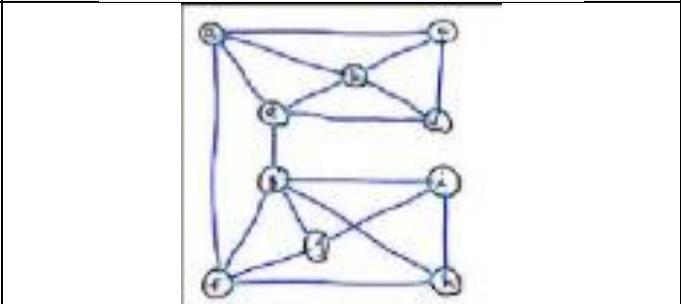

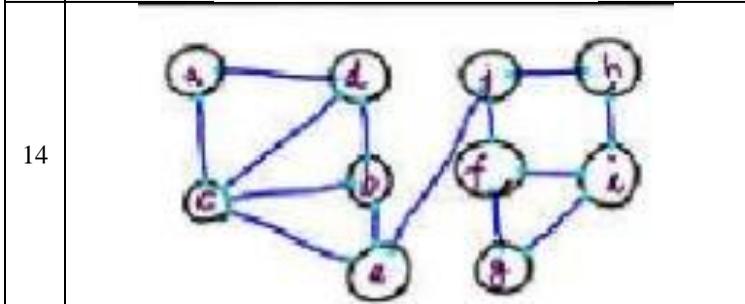

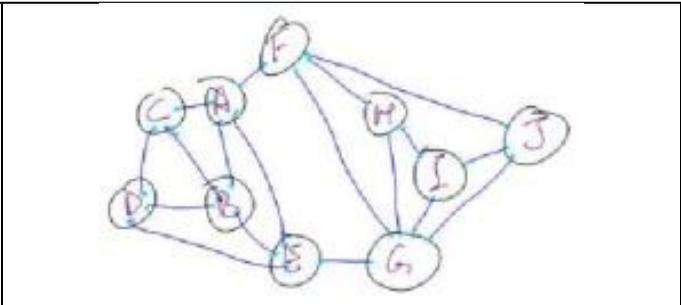

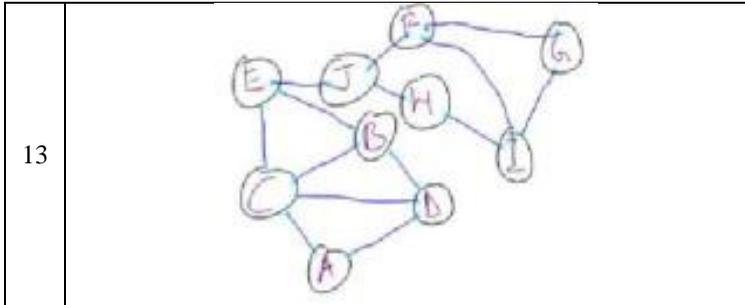

The following pages contain the sketched graph data for the following experiments:

- **Experiment 1: data collected from the experiment reported in TVCG, 18(1), pp 18-92.**
- **Experiment 2: data collected from a follow-up experiment which also applied two layout algorithms to participants' own sketched graphs.**
- **Experiment 3: data collected from a follow-up experiment which presented the graph in a different format to that used in experiment 1.**
